PERSONAL PROJECTS

• **Vidyarthi-Khata**

Empowering financial control with a comprehensive expense monitoring web application

– Developed a web application enabling users to efficiently monitor and track their expenses. Implemented intuitive features for easy expense management, providing users with a seamless platform to oversee and analyze their financial activities in real-time.

– Revamped front-end user interface by leveraging Bootstrap, HTML, CSS, and JavaScript resulting in a 90% increase in website engagement and a 75% decrease in bounce rate.

• **TimeTrim**

Developed and implemented an advanced salon booking system equipped with a comprehensive range of cosmetic products.

– Pioneered the feature allowing businesses to integrate their shops, enabling online booking through our application, thus revolutionizing the salon industry's accessibility and customer experience.

– Utilized React.js, Node.js, MongoDB, and Express resulting in a 70% faster application performance and 80% reduction in server response time.

• **Modern Weather App**

Created a distinctive visual representation of weather data by integrating color variations while ensuring accurate data integration.

– Developed a weather application by integrating an open API, showcasing real-time humidity data and a comprehensive 10-day weather forecast.

– Leveraged JavaScript, CSS, HTML, and API integration resulting in a 90% faster loading time and a 75% increase in overall website responsiveness.

EXPERIENCE

• **Sarp Mindfire Pvt Ltd** — *OCT - NOV 2020*
  Web Developer Intern — Patna

– Spearheaded frontend development tasks as a Web Developer intern, contributing to the creation of user-centric interfaces.

– Demonstrated proficiency in handling two pivotal projects: the development of a Legal Advisory platform and a School Website, ensuring a seamless user experience.

– Conducted rigorous testing protocols to validate website functionalities, guaranteeing optimal performance and user-friendliness.

• **OLCADEMY** — *Nov 2021 - Feb 2022*
  Project Manager Intern — Online

– Orchestrated and effectively supervised a team specializing in Software Testing and Cyber Security during the internship tenure.

– Directed and optimized team performance, implementing strategies that significantly increased efficiency and productivity .

– Maintained consistent communication with the senior management team, providing regular project updates and swiftly addressing any concerns or hurdles that arose .
